SCORING COMBINATIONS

THE UPPER SECTION

—In the Upper Section, there are ACES (ones), TWOS, THREES, FOURS, FIVES, and SIXES. If you choose to score in the Upper Section, you count and add only the dice with the same number and enter the total of such dice in the appropriate box. For example, at the end of your turn, you rolled the following and have elected to score in the Upper Section. You would score 9 in the THREES box as this toss:

—you may enter the total of any number of the same value dice in the appropriate box in the Upper Section. For example, if your final dice toss is:

You may choose to score 2 in the ACES box or 6 in the SIXES box.

—if you are unable to place a score in either the Upper Section or the Lower Section, you must enter a zero in the scoring box of your choice in either section.

—if you score 63 points or more in the Upper Section, you earn a bonus of 35 points which you enter in the Bonus box of the Upper Section (for quick calculation, 63 can be obtained by scoring three of each number, ACES through SIXES).

THE LOWER SECTION

The Lower Section is scored exactly as indicated.

—3 OF A KIND box may be filled only if the dice show at least three of the same number. For example, if your final toss is:

You would score 18, a total of all five dice in your 3 OF A KIND box.

—4 OF A KIND box scores the total of all dice provided they include four of the same number. For example, if you toss:

You would score 14, a total of all five dice, in your 4 OF A KIND box. *Note:* you could also score this toss in the 3 OF A KIND box as 14, since it also meets those requirements. You decide which box, but only one box scored each turn.

—FULL HOUSE box is scored when the dice show any combination of three of one number and two of another number. Any FULL HOUSE is scored as 25 points. For example, you would score 25 in the FULL HOUSE box if the dice showed:

Note: you could also score this combination in the following ways: as 19 in the 3 OF A KIND box in the Lower Section; as 9 in the THREES box in the Upper Section; as 10 in the FIVES box in the Upper Section; as 19 in the CHANCE box in the Lower Section. Again, you must decide where to score!

—SMALL STRAIGHT box can be scored if the dice show any sequence of four numbers. Any SMALL STRAIGHT scores 30 points. The following are examples of SMALL STRAIGHTS:

Any 1 Any 2 Any 3 Any 4

—LARGE STRAIGHT box can be scored if the dice show any sequence of five numbers. Any LARGE STRAIGHT scores 40 points. The following are examples of LARGE STRAIGHTS:

Note: a LARGE STRAIGHT may also be scored as 30 points in the SMALL STRAIGHT box, since it also meets such requirements.

—YAHTZEE box can be scored if the dice show five of the same number (5 of a kind). A Yahtzee scores 50 points. One example of a Yahtzee is:

Please see "Yahtzee Bonus" and "Yahtzee As A Joker" on pages 8 and 9 for more details on scoring more than one Yahtzee in a game.

—CHANCE box scores the total of all five dice and it is the one chance to score any combination. For example if you tossed:

You could score 22 in the CHANCE box on this toss, a total of all the values!

THE YAHTZEE BONUS

You receive 100 Bonus points for the second and each subsequent Yahtzee (5 of a kind) that you toss, only under the following condition: if, and only if the first Yahtzee was scored as a 50 in the YAHTZEE box. If you had previously scored a zero in that YAHTZEE box, you are not entitled to a Yahtzee Bonus.

If you do roll another Yahtzee and have previously scored 50 in your YAHTZEE box on your first Yahtzee rolled, then place a check mark in the YAHTZEE BONUS box on your score sheet. At the end of the game, the number of "checks" are totaled....100 points per check....and all Bonus Yahtzee points are added to your final score.

YAHTZEE USED AS A JOKER IN THE LOWER SECTION

A Yahtzee may be used as a joker in the Lower Section when both of the following conditions exist:

1. The YAHTZEE box has been previously filled with a 50 or a zero.

2. The appropriate box in the Upper Section has been previously filled. For example, if you tossed the following Yahtzee and the FOURS box had been previously filled.

Now, if you wish to score the above Yahtzee in the Lower Section, total all five dice (in this case the value is 20) and fill any of the following Lower Section boxes: 3 OF A KIND, 4 OF A KIND, or CHANCE. If you wish to score this Yahtzee in the FULL HOUSE box, score it as 25; if you wish to score it in the SMALL STRAIGHT box, score it as 30; if you wish to score it in the LARGE STRAIGHT box, score it as 40. Important: if all the boxes in the Lower Section are filled, you must enter a zero in a box of your choice in the Upper Section.

Please Note: you may or may not be able to score a Yahtzee in the Lower Section. In either instance, however, you could be entitled to a Bonus Yahtzee - place a check in the YAHTZEE BONUS box only if you previously filled the YAHTZEE box with a 50, not a zero!

YAHTZEE SCORED IN THE UPPER SECTION

You may also score a second or subsequent Yahtzee in the Upper Section, if you have previously filled your YAHTZEE box with a 50 or a zero. To do so, score the total of the five dice in the appropriate box. For example, if you rolled five 4's, you would score 20 in the FOURS box. You may also be entitled to a Bonus Yahtzee - place a check in the YAHTZEE BONUS box only if you previously filled the YAHTZEE box with a 50, not a zero!

EXAMPLE OF GAME PLAY

Here are some possible scoring combinations on three dice rolls.

On your first dice roll, you shoot this:

You could choose to go for TWOS in the Upper Section or 3 OF A KIND (in this example a possible three 2's) in the Lower Section. To do so, lock in the two dice marked "2" and reroll the 1, 3 and 6 dice and attempt to roll more 2's on the second roll.

If on the second roll of the dice, you toss this:

You could stop rolling here and score 6 in the TWOS box in the Upper Section or 17, the total of all five dice in the 3 OF A KIND box in the Lower Section. Or you could choose to roll again in the hope of getting one or even two more 2's.

If you choose to roll again, reroll the 5 and 6 dice only and toss them for your third and final roll. Here's what you get for your third toss:

On this roll, you could score the following in the Upper Section: a 6 in the TWOS box, or a 1 in the ACES box or a 4 in the FOURS box. In the Lower Section, you could score the following: an 11, a total of all five dice, in the 3 OF A KIND box, or an 11, a total of all five dice, in the CHANCE box.

Sessions 8–10: Turning, Lane Posi

Sessions 8 – 10 require knowledge of signs, signals, pavement markings, right of way rules, and speed limits. Review the Virginia Driver's Manual (www.dmvnow.com/drivers/#manual.html) to prepare for these sessions.

During these three sessions start in a parking lot and practice 10-15 right and left turns into parking spaces and at intersections from stopped and moving positions. Left turns should be "squared" and right turns should be "rounded." Emphasize proper signals, mirror checks, speed and steerin control, use side view mirror reference point for turns, and look far ahead of the vehicle at selected targets in the center of the path of travel. Encourage your child to search the driving environment and not to fixate on any one thing Prior to progressing to driving in low-risk neighborhoods, your child should be able to demonstrate the ability to move and stop the vehicle smoothly, maintain a given spe and steer with reasonable precision. Once your child has mastered these skills, begin practicing right and left turn

MB A MILTON BRADLEY COMPANY
Ages 8 to Adult®

E. S. LOWE CO.
SPRINGFIELD, MASS. 01101

E2801-X1
4

NUMBER OF PLAYERS:

Word Yahtzee may be played by two, three or four players. It may also be played solitaire and one player tries for the highest possible score.

OBJECT:

To earn a higher score than your opponents by building high-value words.

EQUIPMENT:

7 Letter Dice with Number Values • 1 Timer
1 **Word Yahtzee** Score Pad • 1 Dice Cup

GAME SUMMARY:

Take a score sheet and use a pen or pencil (not supplied) to keep your own score.

You may roll the dice as many as three times in each turn in an attempt to make a word and earn point values. Only words found in a standard dictionary are allowed. Proper nouns, abbreviations, slang and foreign words are not allowed. There is one dice marked with a diamond. This can be used as any letter (wild) but it has no point value. After three rolls of the dice, you *MUST* record a score or a zero in one of the vertical boxes corresponding to the number of the round. If you want to score in *"All Consonants," "All Vowels," "Yahtzee Words,"* or *"Chance"* (lower section) in any round, you must record a zero in the box corresponding to that round. A complete game consists of eight rounds which must be played in numerical order.

As an option, you may choose to score the eight *"round"* boxes in *random* order (not numerical or consecutive). If you use this version of play, be sure all players are aware of it before starting the game. The game ends after eight rounds have been played.

TO PLAY:

1. Choose one player to go first. Others play in turn, clockwise.
2. In each turn, you may take a maximum of three rolls of the letter dice (although you may stop after the first or second roll).
   A. In the first roll, you must use all seven dice.
   B. In the second or third rolls, you may or may not set aside dice that partially spell out a word and then roll the remaining dice. You do not need to declare the word, but it must be completed in that round. The wild diamond may be declared to be any letter.
   C. After the third roll, dice are final and must be scored.
3. You are allowed one minute to complete your turn.

SCORING:

1. There are 12 scoring boxes. In the upper section, there are boxes for two, three, four, five and six letter words. In the lower section, there are boxes for one word, two words, three words, All Consonants, All Vowels, Yahtzee Words, and Chance.
2. Progress down the score sheet beginning at *Round 1* and ending at *Round 8*. If you are playing in random order, score boxes as you play them.
3. At any time, you may score in the *"Yahtzee Words"* box if you roll a seven letter word. Score 50 points in the *"Yahtzee Words"* box and place a zero in the round # box.
4. In any turn, but *BEFORE* a third roll, you may score in the following categories:
   A. *"All Consonants"*—Try to roll seven consonants. If you succeed, score 25 points in the appropriate box and place a zero in the round # box.
   B. *"All Vowels"*—Try to roll seven vowels. Vowels are A, E, I, O, U, & Y. If you succeed, score 25 points in the appropriate box and place a zero in the round # box.
   C. *"Chance"*—Score the number value of the word or words you have formed in this box and place a zero in the round # box.
5. If you earn a score of 30 or more points in the first five boxes of the upper section, you receive a bonus of 35 points for this section.
6. If your first **Yahtzee** word was scored as 50 points, you receive a bonus of 100 points for a second and subsequent Yahtzee word. Add the 100 bonus points to the *Grand Total* and put your score on the back of the score sheet. If you did not make your first **Yahtzee** word but placed a zero in the box, you are *not* entitled to any bonus points.
7. To determine the final score, total all the points in the upper section (including any bonus points). Add the points in the lower section. The combined total of the upper and lower sections is your *Grand Total*. Be sure to add your **Yahtzee** bonus points (if you are due any) to the *Grand Total*. The person with the highest score wins the game.

Note: Extra score pads may be purchased at better department and stationery stores.

Sunshine

No. 9000 TOPPLE™

The fun action game where winning or losing hangs in the balance of every move! Players score points by completing rows and stacking pieces. But the more points you score, the harder it is to keep TOPPLE from toppling! For 2 to 4 players. Ages 6 to adult.

TV

No. 9201 WIN BY A NOSE™ GAME FEATURING MR. NOSE™

NEW!

It's a fast paced race to complete the face! In this exciting new game, players try to be the first to get their playing piece to the top and—WIN BY A NOSE! Just pull the nose on MR. NOSE—it's the fun way to POP the dice—and advance along the three dimensional board. If the nose comes up on the game die, you get to move up to the next level. But, be careful! Landing on a Nose-Dive square will send you back to start. By landing on a Sneeze space, you get to send an opponent back. In this great family game, anyone can WIN BY A NOSE—unless, of course, they're nosed out! For 2 to 4 players, ages 5 and up.

STROLLER INSTRUCTIONS
B.O.B Stroller
TO CLOSE: Squeeze triggers under handle bar and flip top portion of the stroller forward. Now pull ripcord under seat rear up and towards you. This will collapse the bottom portion of the stroller. Secure stroller with strap and buckle.
TO RECLINE: Loosen straps on rear of seat back to desired reline. For full recline, unclasp buckles on seat backs. To bring upright, tighten straps and clasp buckle back into position.
TO PARK: Depress foot brake on rear of stroller until locked. To release, lift up on the foot brake.
